| 1 | Simple investigations and procedures and general procedures | Consultations, simple investigations and procedures and general procedures | 02/07/2018 |
| Billing Principles | <p>Anaesthesia By The Operator</p> <p>There are many procedures which are commonly performed under local/topical anaesthesia by the operator such as investigations and simple procedures, including but not limited to those procedures listed in Chapter 1. E.g. removal of skin lesions. In these instances the published surgical benefit includes an amount for anaesthesia by the operator and no additional charges should be made for this service. For some procedures normally performed under general or regional anaesthesia an additional fee of up to £100 may be made for IV sedation by the main operator as long as no separate anaesthetic is billed. An example of this is a colonoscopy under IV sedation. This should be billed as code X3510 and an asterisk will show</p> | <p>Anaesthesia By The Operator</p> <p>All procedure prices within the schedule are all inclusive of any charges for local/topical anaesthesia and IV sedation by the main operator. We will not pay extra if a separate charge is received for local/topical anaesthesia or IV sedation by main operator or from a separate anaesthetist.
